Together
We can make a Difference
Dengue is preventable

Symptoms of Dengue
- High Fever
- Severe Headache, Backache
- Pain in eye movement
- Skin rashes / red spots
- Bleeding from gums, nose

In case you have above symptoms, consult a Doctor immediately

Just take few simple steps
- Use bednets at home and hospital during dengue fever to prevent mosquito bite & transmission
- Cover all water tanks and containers with lid
- Wear full sleeved clothing covering the body to avoid mosquito bite during day time
- Empty, scrub & dry desert coolers every week before refilling
- Dispose & destroy unused containers, Junk materials, tyres, coconut shells etc
- There is no specific medicine for dengue fever, self medication should be avoided
